eastbourne.gov.uk/pollution

- Noise Control, neighbours advice
- Public Health
- Air Quality, with bonfires advice
- Sea Water Quality

**Learn about Environmental Health**  
eastbourne.gov.uk/learning

Visit our new section for children and schools, where you can learn about the weather, climate change and how you can improve the environment

**Climate Change – Act on CO2**  
eastbourne.gov.uk/climate

Find out about climate change, what the council and the government are doing, and what you can do to help. Find over 200 useful websites in our Climate Websites Directory.

**Climate Change**  
Find out about climate change, what the government is doing and what we can all do to help.

Climate change is the greatest environmental challenge facing the world today.

In this section find out why we all need to Act on CO2. Calculate your carbon footprint on Directgov and get advice about greener living.

**What is Climate Change?**  
There is strong evidence that human emissions of greenhouse gases are changing the world's climate.

The main greenhouse gas is carbon dioxide (CO2), produced when we burn fossil fuels like coal, oil and gas for energy.

Climate change is a serious problem that affects us all. Rising global temperatures will bring changes in weather patterns, rising sea levels and increased frequency and intensity of extreme weather events.

The UK is acting now to adapt to climate change and to reduce the risk by reducing our contribution to the causes.
